

McFarlane Aviation Releases FAA-PMA Approved Retractable Cable for Cessna 210 Aircraft

MEDIA CONTACT: Mackenzie Wehrman | Media@Victor-Sierra.com

For Immediate Release:

December 29, 2025 | BALDWIN CITY, KANSAS

McFarlane Aviation has received FAA-PMA approval for the Retractable Step Cable used on Cessna 210 aircraft. Part number [MC1211504-1](#) is a direct replacement for OEM P/N 1211504-1 and is installed on the passenger side entrance step. This McFarlane cable is FAA-PMA approved and meets the same fit, form, and function requirements as the OEM part, while offering improved quality at a lower cost.

The retractable step cable is typically replaced when identified during periodic inspection. Common reasons for replacement include wear to the inner wire rope or exterior protective hose, fraying of inner wire strands, fretting, or other visible wear on the inner wire.

Full eligibility listings and cross-reference tables are available at McFarlaneAviation.com.

About McFarlane Aviation

McFarlane Aviation provides high-quality FAA-PMA aircraft parts and accessories for general, commercial, and specialty aviation. With brands like CJ Aviation, Flight-Resource (MT Propellers), Airforms, and PMA Products, McFarlane delivers reliable aftermarket solutions backed by engineering excellence.
