

McFarlane Aviation Announces the Exciting Lineup for EAA AirVenture Event 2023

McFarlane is once again delighted to be a part of EAA AirVenture. This event always provides a unique opportunity for the team to interact with aviation enthusiasts and discuss their latest products and offerings with valued customers. They are looking forward to connecting with everyone, sharing expertise, and contributing to the vibrant aviation community that gathers at the show.

As a leading manufacturer and distributor of high-quality FAA-PMA aircraft parts, McFarlane is thrilled to announce its expanded level of participation. With three separate booth areas (C-3131, C-3157/3158, & B-2079), McFarlane is excited to celebrate the 70th anniversary of EAA AirVenture, taking place from July 24-30, 2023, in Oshkosh, Wisconsin.

During EAA AirVenture, McFarlane will be introducing numerous new products along with their new catalog, which is nearly 600 pages, as well as a first look into their family of brands. Attendees can expect to explore the following highlights:

- McFarlane's growing line of new PMA's and cost-saving legacy PMA products, including seat and cargo rails, engine controls, flight control cables, MT Propellers, fuel accessories, engine baffles and seals, and precision tools. These parts are all specifically designed to enhance aircraft performance, safety, and reliability.
- McFarlane will once again showcase the Composite MT Propeller, with MT specialists in their booth in Hangar C (3131). Ask for the McFarlane/MT package Oshkosh special.
- Full engine baffle displays will also be available in the Airforms/McFarlane booth in Hangar B (2079). Check out their new engine baffles that include Cowl Saver Baffle Seal Material, which has McFarlane's special Bi-FlexTM technology.
- For the first time, McFarlane will have a separate retail booth 3157/3158 in Hangar C to purchase products and find exciting giveaways and promotions for all your aircraft needs.
- Meet-and-greet sessions with air show performers are also scheduled in the McFarlane booth. For more information about the performers, including when and where they are performing, [refer to the official EAA website](#).
- Most importantly, Dave McFarlane will be in attendance to visit everyone and discuss the wide range of products that keep the aircraft community flying.
