

mt-propeller

The MT Composite Propeller New Expedition Series Tough & Powerful!

" I have thousands of hours on my MT prop in some of the most rugged conditions and it is holding up better than my old metal prop."

-Larry Larrabure www.BackCountry182.com

A Winning Combination!

www.Flight-Resource.com

World's Largest MT-Propeller Distributor

Composite Propeller STC's for most popular aircraft

**Popular 'EXPEDITION' Performance Series
2-Blade 83" Composite Propeller!
Approved for ALL Continental Engine Models**

Don't settle for metal; Go for the Best!

- Lightest (46 lbs) prop option
- Fastest of all prop options, metal or composite
- Increased static thrust
- Shorter take-off distance
- Improved rate of climb
- Solid core composite dampens vibration
- Nickel-Cobalt leading edges are 60% stronger!
- No water erosion for float operations
- Reduced noise and unlimited blade and hub life
- Owner repairable blades for minor damage
- No expensive or bothersome AD's
- Great looks and unique sound

**REVERSE Option Also Available
In stock for immediate delivery**
