User/Installer Responsibilities							
It is important to understand that the existence of the document alone does not automatically constitute authority to install the aircraft engine/propeller/article.							
Block 1, it	Where the user/installer performs work in acco. danc. with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installe en ure that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1.						
Statements in Blocks 13a and 14a 20 of enstitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/istrate before the aircraft may be flown.
