6. Overhauled Weldon Pumps - 6 months or 75 hours whichever comes first.
7. Selector Valves - 1 year or 150 hours whichever comes first.
8. All pumps and valves must be returned to CJ Aviation Products for warranty consideration prior to purchasing a replacement pump from CJ Aviation Products or one of their Distributors.
9. CJ Aviation Products at its discretion will either repair or replace the warranty pump in question.
10. CJ Aviation Products will expedite the inspection of the warranty consideration pump to reduce any down time for the customer.
11. Warranty will be denied if the pump has been subjected to contamination, mishandling or has been taken apart without authorization.
12. If the customer decides to purchase a new or overhauled pump prior to returning the pump for warranty that is their own discretion to do so. However, when the warranty pump in question is inspected and no fault is found the pump will be returned to the customer as is and no refund will be given to the customer for the purchase of the replacement new or overhauled pump.
13. If warranty is accepted CJ Aviation Products will repair and return the warranty pump to customer at no charge. If the customer purchased a pump prior to allowing CJ Aviation Products the opportunity to inspect the warranty consideration pump, no refund will be issued for the additional new or overhauled pump purchased.
14. All valid warranties will be shipped back UPS ground. Shipping for non-valid warranties will be at the customer's expense. No fault found (non-valid) warranties will be assessed a \$100 recertification charge.
15. Any other costs related from a suspected warranty pump will not be CJ Aviation’s responsibility.
16. CJ Aviation Products strives for 100% customer satisfaction. In extreme cases please inquire about our loaner pumps for some of the more popular part numbers.
